

# Tinker Bell's Wand

**Time:** 20 minutes

## What You'll Need

- Regular paper or cardstock
- Scissors
- Glue
- Ribbons, glitter, jewels or sequins (optional)

## How To Make It

- 1 - Print out the wand on regular paper or cardstock and cut out all of the pieces.
- 2 - Take the back piece of the star and fold along the dashed and dotted lines. Fold the white, dashed lines to form a peak and fold the dark, dotted lines to form a valley.
- 3 - Fold each tab of the back piece under the star and glue them together at each point.
- 4 - Lining up the pieces, spread glue on to the underside of each star point and glue it to the white side of the front piece of the star. Make sure to leave an opening at the bottom of the star to insert wand later.
- 5 - Now it is time to make your wand. Fold the wand piece on the dotted lines and glue the tab to the inside of the wand, so it makes a rectangular stick.
- 6 - Place a dab of glue onto the top of the wand and insert it into the bottom of the star, so that the glue sticks to the front, flat piece. You may want to make a small slit along the dark dotted line on the bottom of the back piece of the star to help it fit. Press until the glue dries.
- 7 - Your wand is complete! Decorate it with ribbons, glitter, jewels or sequins to give it your own personal touch.

## Notes

Cutting should be done with the aid of an adult.
